Activities and intents

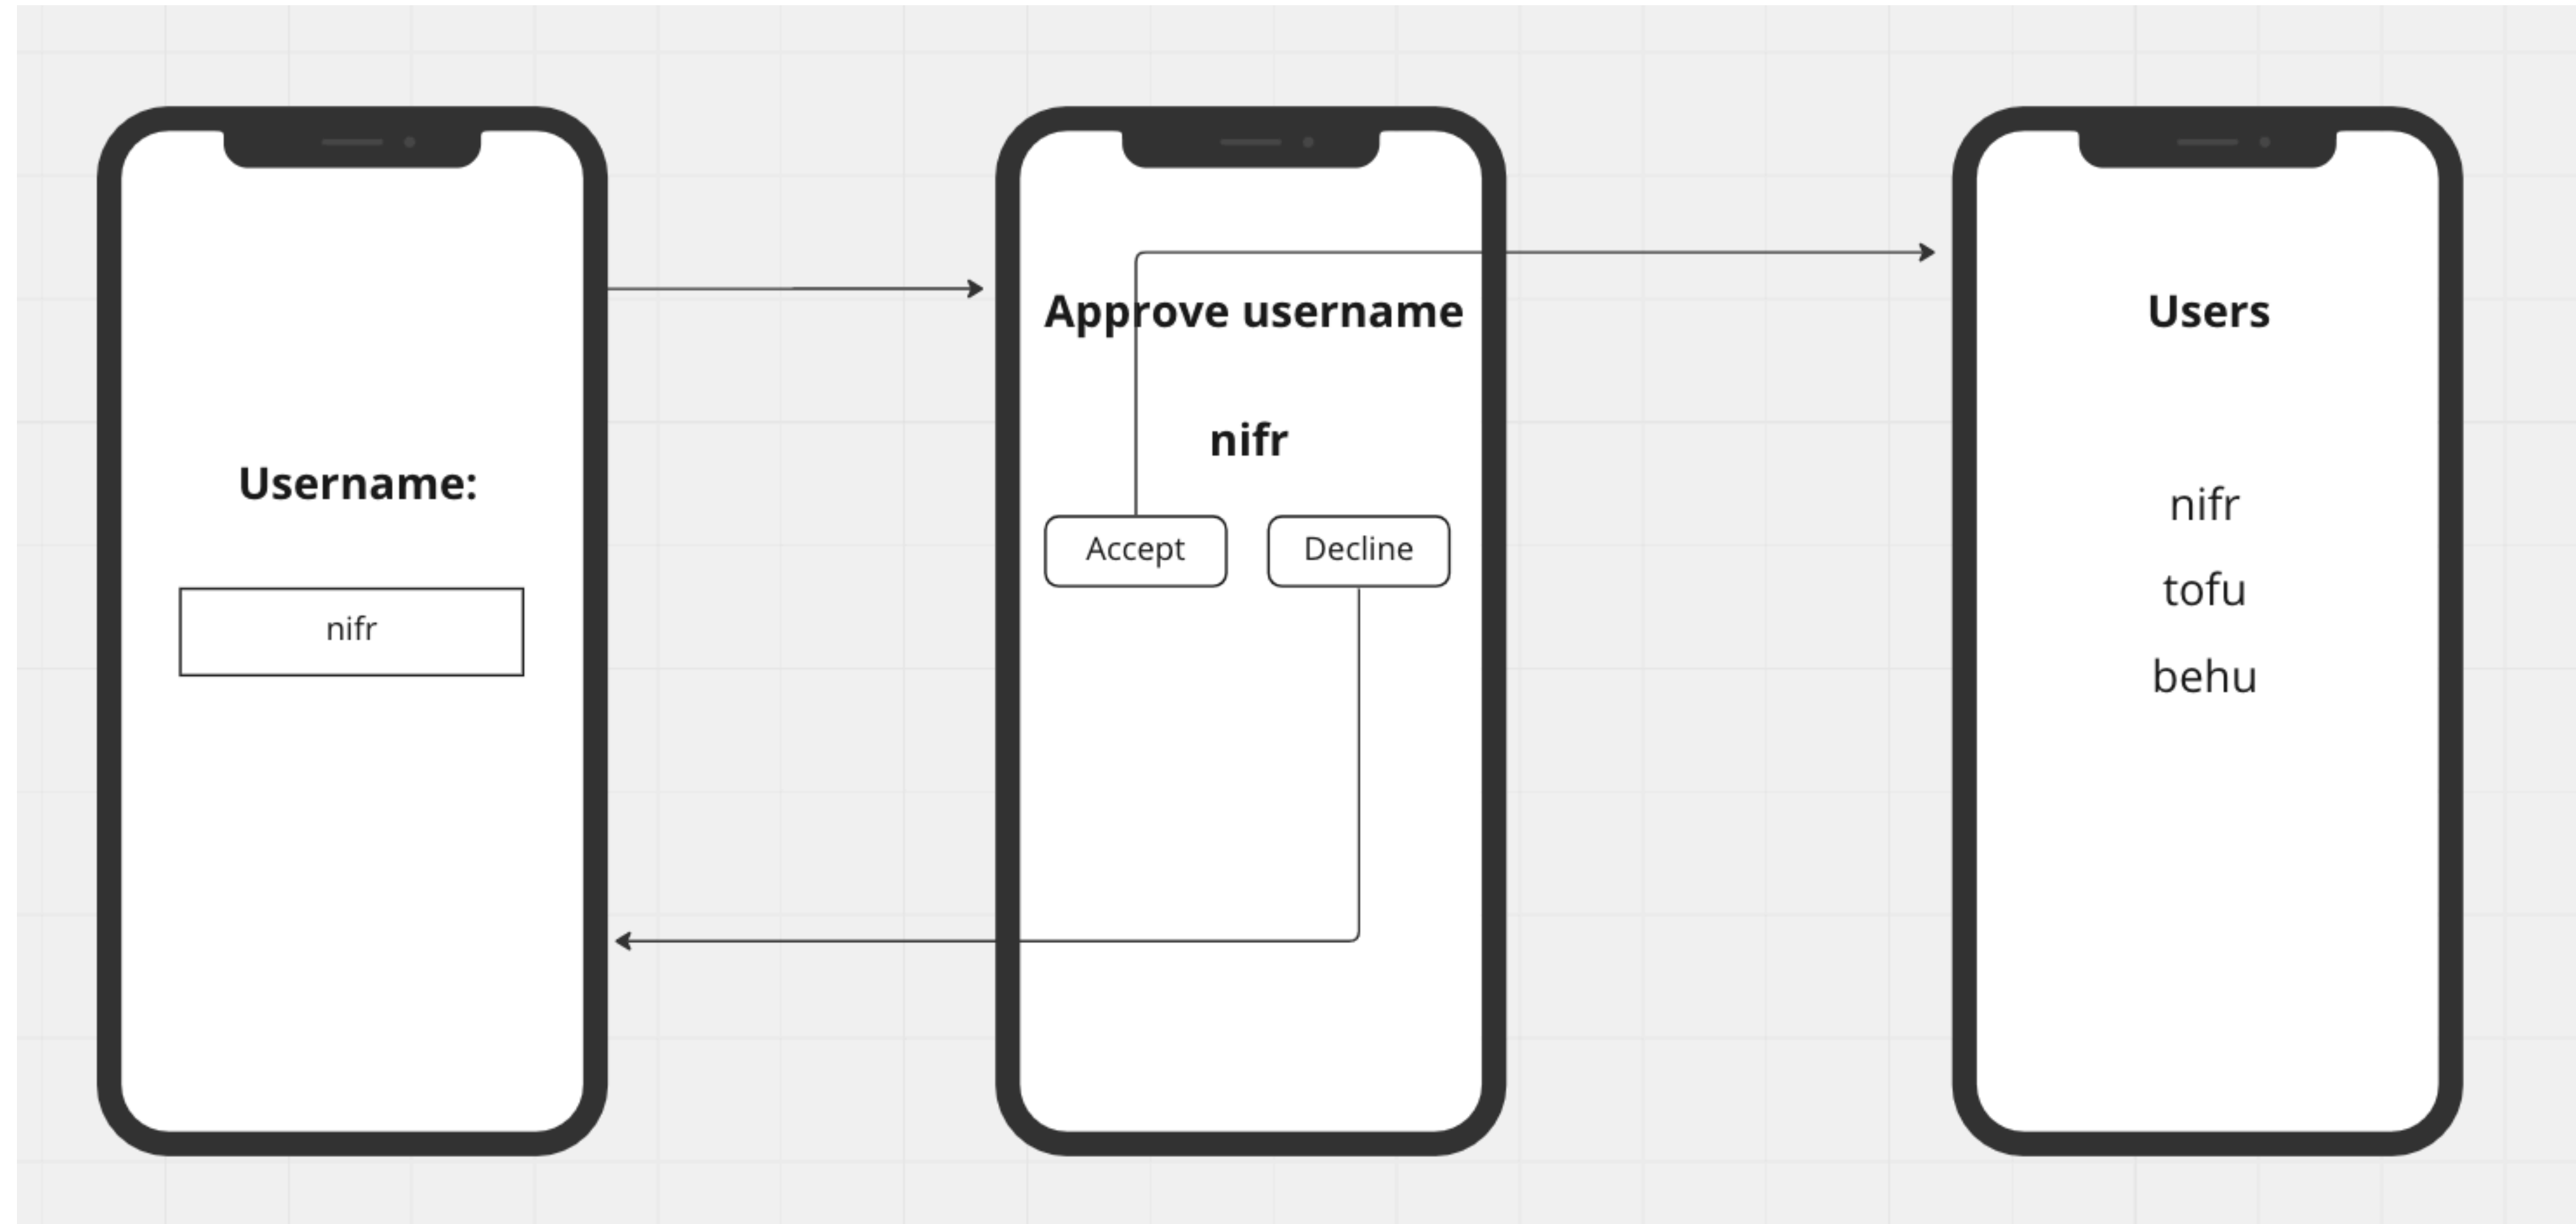

# Agenda

## Activities and Intents

- Activities & Intents
- Intents
  - Starting an activity
  - Activities for results
  - Dynamically adding Strings to a ListView

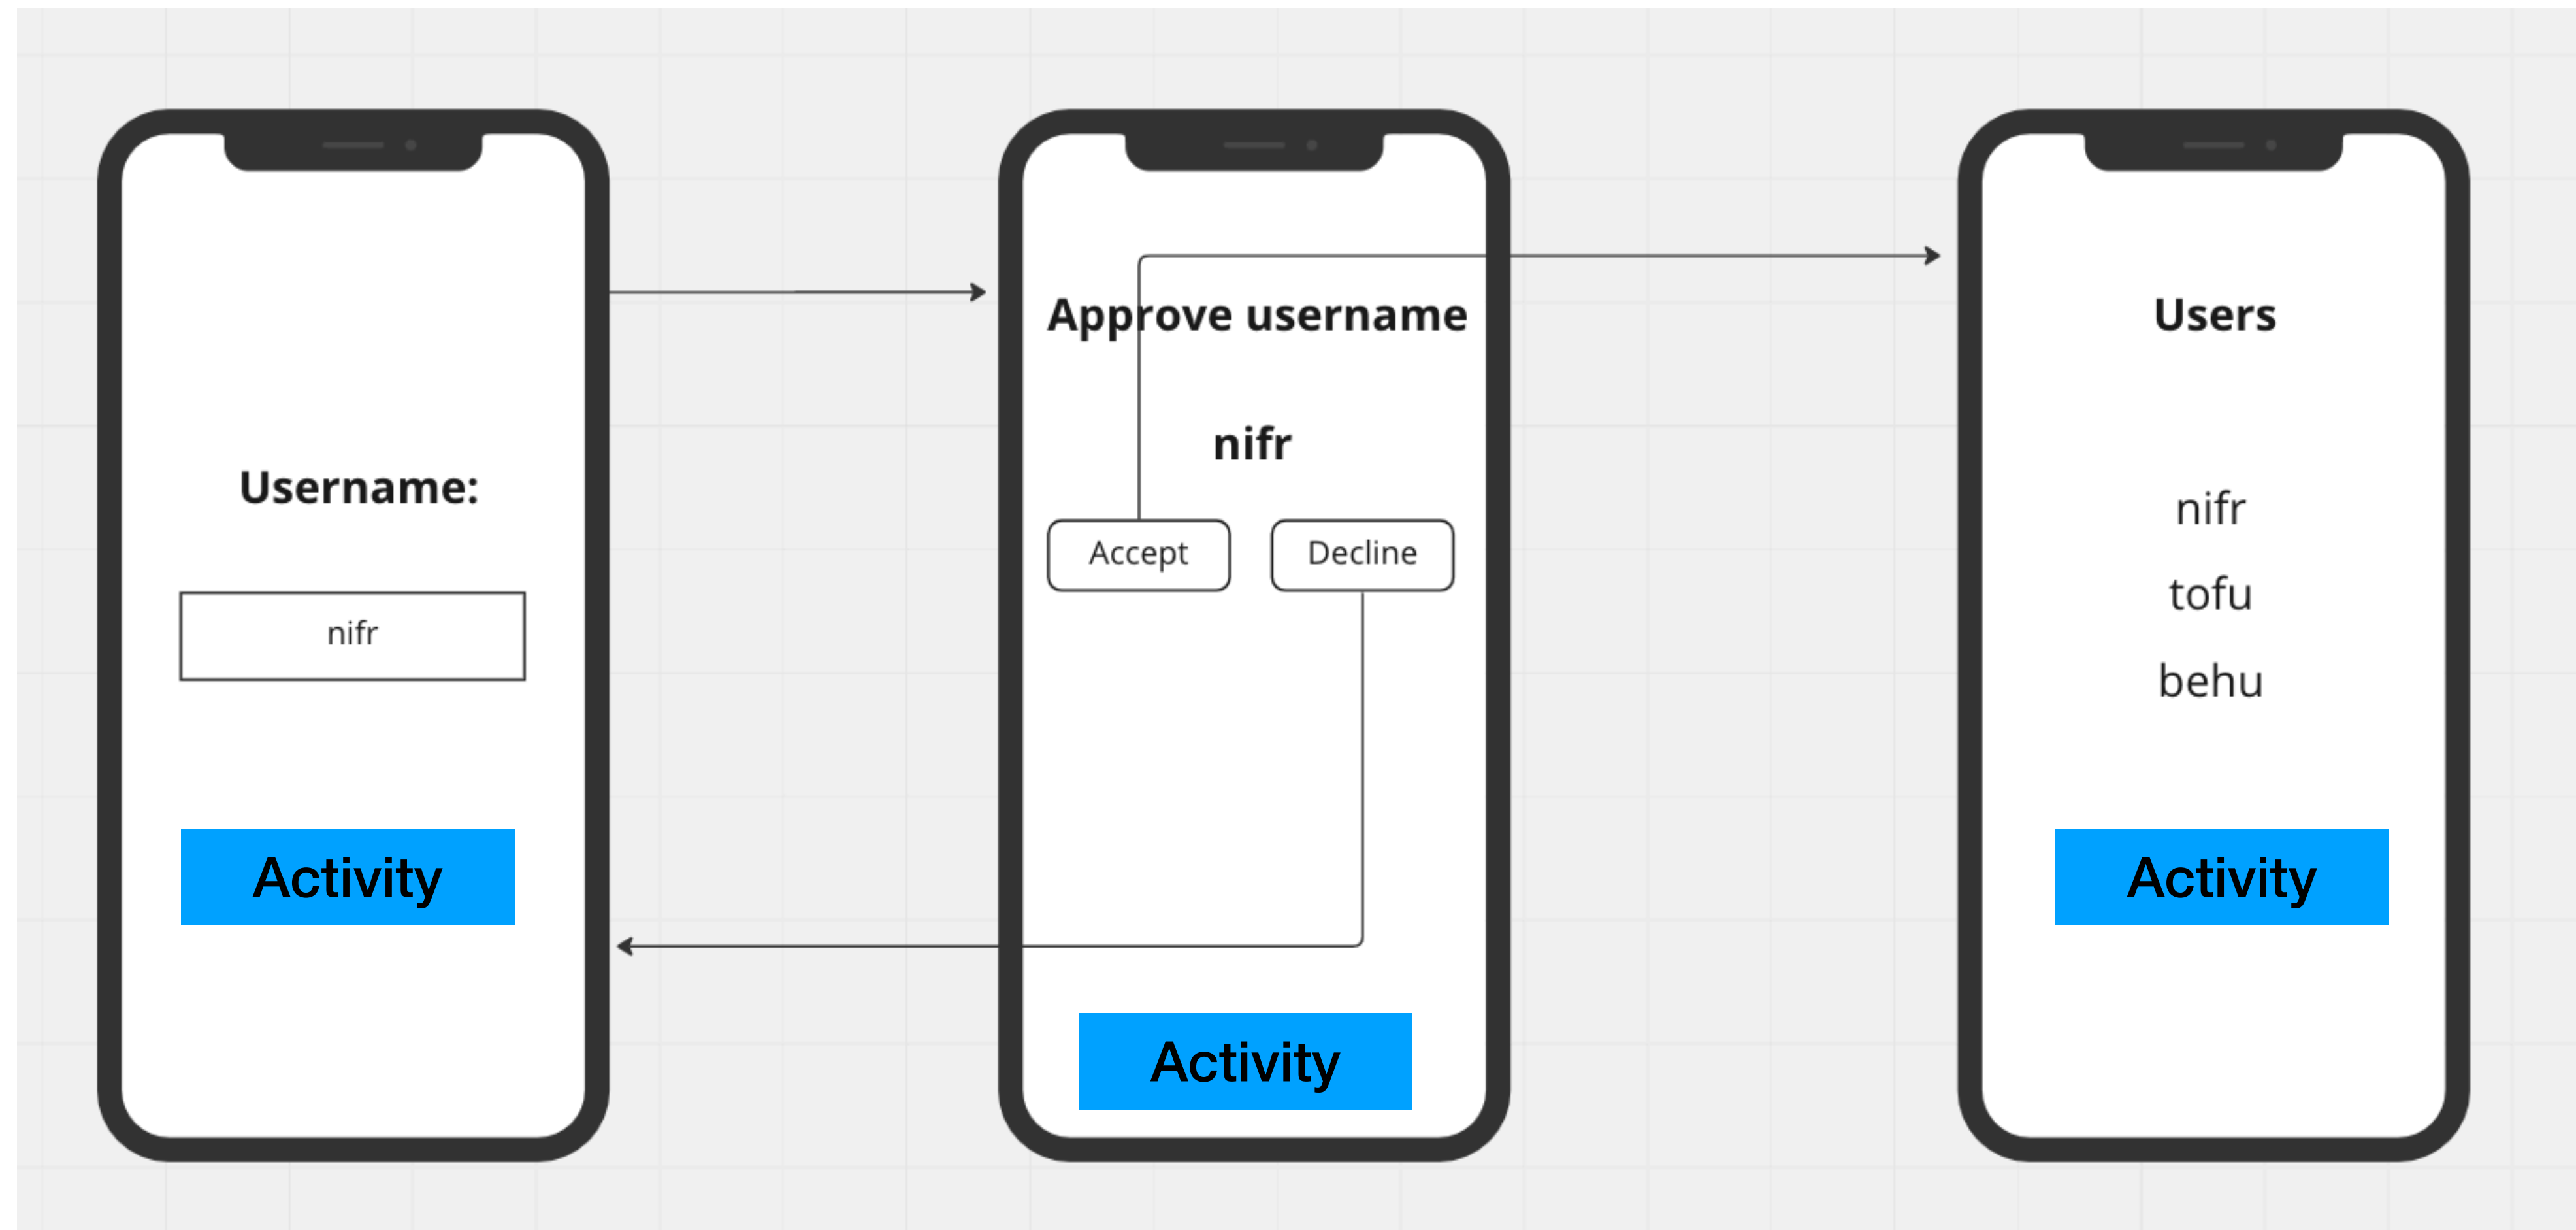

# Exercise objective

## Activities & Intent

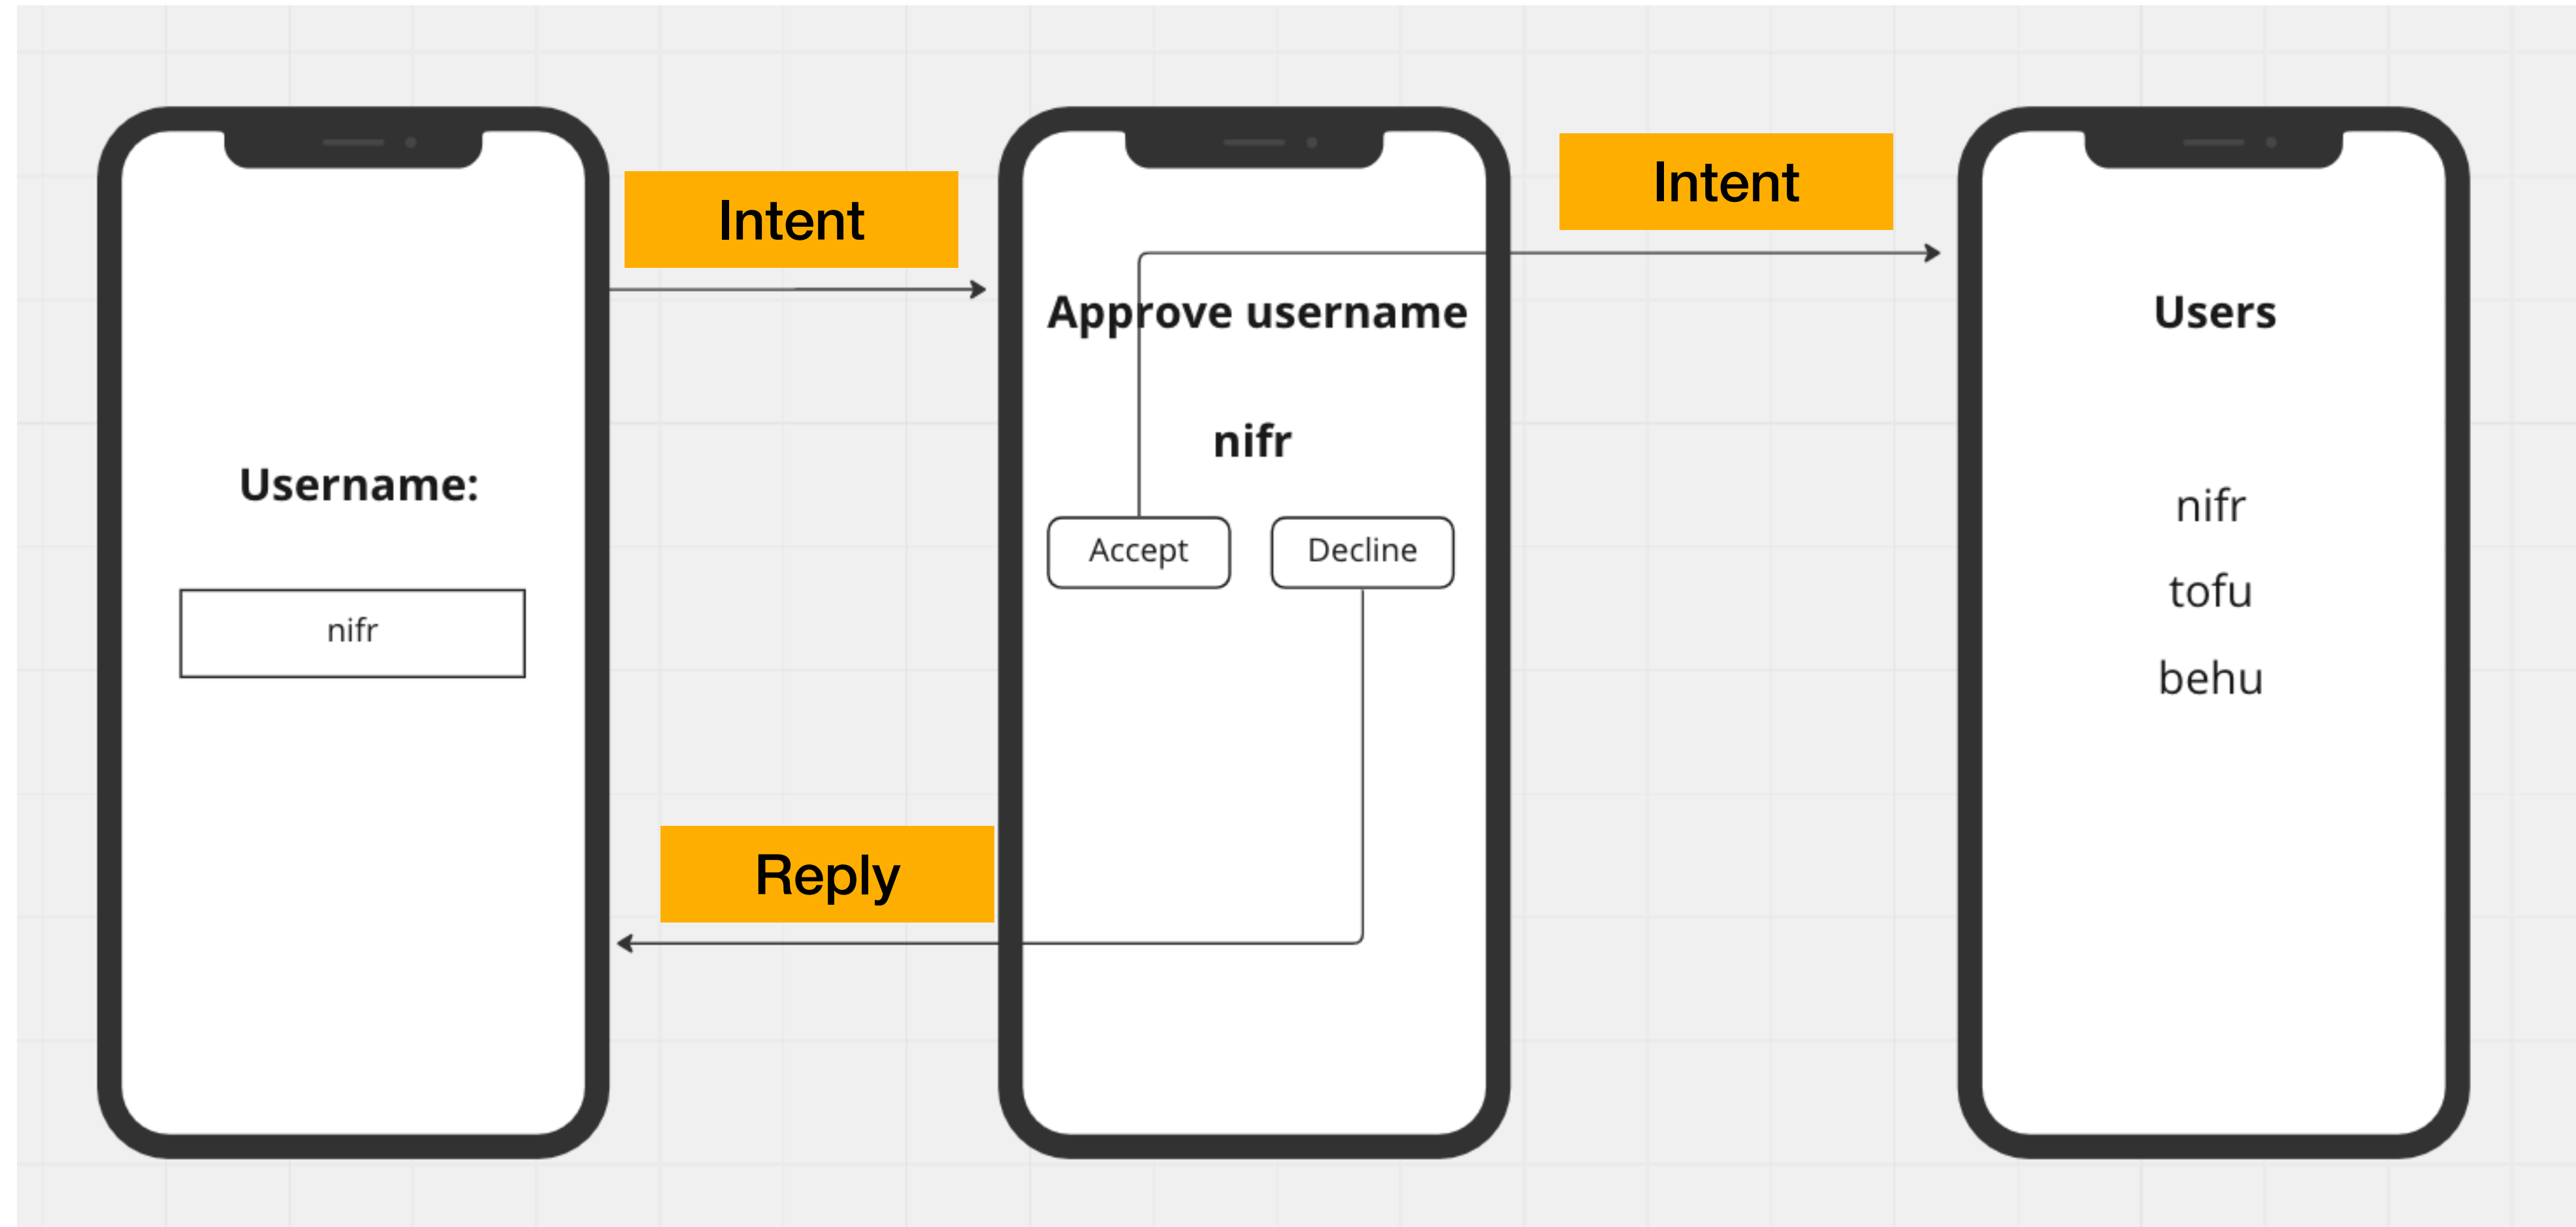

# Exercise objective

## Activities & Intent

# Exercise objective

## Activities & Intent

Pseudocode to transfer data:

- Create new Intent(from, to);
- Get message/data to send
- Put as “extra” (k/v-pair)
- Start Activity

# Example Code Intent
